

NEW PATIENT FORM – UNDER 13'S

CONSENT FOR SUMMARY CARE RECORD

The Summary Care Record is a snapshot of your GP medical record which holds medication, allergies and adverse reactions and with your permission the practice can add any additional information you request e.g. Angina diagnosis.

The Summary Care Record is used by other NHS organisations such as A&E and Out of Hours and these organisations can only access this information with your permission. There may be circumstances where staff cannot ask you, for example, if you are unconscious. Healthcare staff may then look at your records without asking you.

I Consent for medication, allergies and adverse reactions only

I Consent for medication, allergies and adverse reactions and additional information (This may include information detailing any health issues which you and your GP considers important to your wellbeing). Please see attached Information sheet for completion, if required.

I Do Not wish to have a Summary Care Record

ETHNICITY STATUS

From 1st April 2006 GP Practices are required to record the Ethnicity Status of all patients registering with the Practice. Could you please provide this information by placing a tick in the appropriate box below:

British White or Mixed British English Scottish Irish Welsh
